Chapter 1. Overview

HititCS NIBE Parametric Links

1.1. Version information

Version : 1.4.26

1.2. URI scheme

Host : ibe.hitit.aero

BasePath : /v1

Schemes : HTTP, HTTPS

1.3. Tags

- Auth - Forgot Password : Recover forgotten password with membershipId, email or phone number
- Auth - Reset Password : Password reset link
- Availability : Search for available one-way, round-trip, multi-route flights.
- Boarding Pass : Create the boarding pass received by e-mail or SMS.
- CCL (Crane Customer Layer) : Opens customer feedback form.
- Check-in : If the queried PNR is available for check-in, it opens the flight selection content.
- Flight Status : Searches status of flights by route or flight number.
- Invoice Ticket : Redirects to the pdf viewer page where passenger invoice tickets are displayed.
- Loyalty - Family Member Request Via E-mail : Create the confirmation member request page received by e-mail or SMS
- Loyalty - Forgot Password : Recover forgotten password with membershipId, email or phone number
- Loyalty - Sign In : Sign in to the loyalty system.

- Loyalty - User Registration Activation : Create the activation page received by e-mail or SMS.
- Reservation : Opens the "Manage Booking" content, which offers services such as Check-in, Additional Services, Change Flight etc.
- Timetable : Search for available flights one-way and round-trip with timetable view.

Chapter 2. Resources

2.1. Auth - Forgot Password

Recover forgotten password with membershipId, email or phone number

2.1.1. Recover forgotten password with membershipId, email or phone number

```
GET /auth/forgotPassword
```

Description

Call forgot password service

Responses

HTTP Code	Description	Schema
200	HTML Page	No Content

2.2. Auth - Reset Password

Password reset link

2.2.1. Password reset link

```
GET /auth/resetPassword
```

Description

Call user resetpassword page

Usage Tips:

- Example Call: https://ibe.hitit.aero/auth/resetPassword?token=837924794567075021387690699600553524&lang=en

Parameters

Type	Name	Description	Schema
Query	**lang** *optional*	Select language	string
Query	**token** *required*	Unique Code. Required to reset password.	string

Responses

HTTP Code	Description	Schema
200	HTML Page	No Content

2.3. Availability

Search for available one-way, round-trip, multi-route flights.

2.3.1. Availability Search Endpoint

```
GET /availability
```

Description

Call availability page(More details into searchapi.js document)

Usage Tips:

- Example Round Trip Call: https://ibe.hitit.aero/availability?tripType=ROUND_TRIP&depPort=DXB&arrPort=JED&departureDate=02.03.2021&returnDate=03.03.2021&adult=1&child=0&infant=0&lang=en

- Example Multi Directional Call: https://ibe.hitit.aero/availability?tripType=MULTI_DIRECTIONAL&depPort=DXB,JED&arrPort=JED,DXB&departureDate=02.03.2021,03.03.2021&adult=1&child=0&infant=0&lang=en

- Example With Dynamic Passenger Types Call: "https://ibe.hitit.aero/availability?tripType=ONE_WAY&depPort=RGN&arrPort=HEH&departureDate=02.03.2021&returnDate=02.03.2021&passengerQuantities[0][passengerType]=ADLT&passengerQuantities[0][passengerSubType]=STDT&passengerQuantities[0][quantity]=1&currency=USD&cabin

Class=&lang=EN"

- Example With Display Calendar View Call:

"https://ibe.hitit.aero/availability?tripType=ONE_WAY&depPort=RGN&arrPort=HEH&departureDate=02.03.2021&returnDate=02.03.2021&passengerQuantities[0][passengerType]=ADLT&passengerQuantities[0][passengerSubType]=STDT&passengerQuantities[0][quantity]=1&currency=USD&cabinClass=&withCalendar=true&lang=EN"

Parameters

Type	Name	Description	Schema
Query	**accountCode** *optional*	Account code	string
Query	**adult** *optional*	Adult Count(deprecated)	integer
Query	**affiliateCode** *optional*	Affiliate Code for the 3.party entegrations	string
Query	**arrPort** *required*	Arrival Port Name/Names. Multiple ports can be entered here by separating them with a comma.	string
Query	**child** *optional*	Child Count(deprecated)	integer
Query	**clickId** *optional*	Click ID must be unique	string
Query	**currency** *optional*	Currency Type (Currency selection is not mandatory.)	string
Query	**depPort** *required*	Departure Port Name/Names. Multiple ports can be entered here by separating them with a comma.	string
Query	**departureDate** *required*	Departure date. Multiple dates can be entered here by separating them with a comma.	number (date)

Type	Name	Description	Schema
Query	**fareBasisCode** *optional*	Selection Parameter. Choose a fare reference for the selected flight. "/" for the split routes	string
Query	**flightNumber** *optional*	Selection Parameter. Choose a flight number to add automatically basket after availability response."/" for the split routes, "-" for the split connected flights	string
Query	**infant** *optional*	Infant Count(deprecated)	integer
Query	**isFFPoint** *optional*	Sets FFPoint for availability request context header	boolean
Query	**isMobileCalendar** *optional*	Open availability page with mobile calendar view. This parameter depends on withCalendar parameter	boolean
Query	**lang** *optional*	Select language	string
Query	**market** *optional*	Market	string
Query	**nationality** *optional*	Nationality information for the search parameters.	string
Query	**packageInfo** *optional*	Selection Parameter. Choose a bundle package for the selected fare group. "/" for the split routes	string
Query	**passengerQuantities** *required*	Passenger Type, Passenger SubType and Quantity	< PassengerTypeQuantity > array
Query	**promoCode** *optional*	Promotion/Discount code	string

Type	Name	Description	Schema
Query	**returnDate** *required*	Return date	number (date)
Query	**tripType** *required*	Trip Type (ONE_WAY, ROUND_TRIP etc.)	string
Query	**withCalendar** *optional*	Open availability page with calendar view	boolean

Responses

HTTP Code	Description	Schema
200	HTML Page	No Content

2.4. Boarding Pass

Create the boarding pass received by e-mail or SMS.

2.4.1. Show boarding pass details

```
GET /boardingPass
```

Description

Call boarding pass main page

Usage Tips:

- Example Call: https://ibe.hitit.aero/boardingPass/?C=837924794567075021387690699600553524&H=7F3B2E5B346CFDA2CA1BB671A3AB6A1D&lang=en

Parameters

Type	Name	Description	Schema
Query	**C** *required*	Unique Code. It will come to the e-mail address.	string
Query	**H** *required*	Unique Hash Code. It will come to the e-mail address.	string
Query	**lang** *optional*	Select language	string

Responses

HTTP Code	Description	Schema
200	HTML Page	No Content

2.5. CCL (Crane Customer Layer)

Opens customer feedback form.

2.5.1. Customer Feedback Form

```
GET /feedback
```

Description

Returns customer UI feedback form.

- Example Call: https://ibe.hitit.aero/feedback

- Example Side Menu Active Call (Inactive): https://ibe.hitit.aero/feedback?sideMenuActive=false

- Example Call With All Parameters: https://ibe.hitit.aero/feedback?sideMenuActive=false&section=2&category=17&subject=274&lang=fr

Parameters

Type	Name	Description	Schema
Query	**category** *optional*	Prefills feedback form, feedback category dropdown	integer
Query	**lang** *optional*	Select language	string
Query	**section** *optional*	Prefills feedback form, feedback type dropdown	integer
Query	**sideMenuActive** *optional*	Mobile Hamburger Menu active if true, deactive if false	boolean
Query	**subject** *optional*	Prefills feedback form, feedback subject dropdown	integer

Responses

HTTP Code	Description	Schema
200	HTML Page	No Content

2.6. Check-in

If the queried PNR is available for check-in, it opens the flight selection content.

2.6.1. Search call for the check-in available flights and after processes.

```
GET /checkin/search
```

Description

Call Check-in Available Flights Page

Usage Tips:

- Example Call: https://ibe.hitit.aero/checkin/search?PNRNo=123ABC&surname=SMITH&lang=en

Parameters

Type	Name	Description	Schema
Query	**PNRNo** *required*	PNR Number	string
Query	**lang** *optional*	Select language	string
Query	**surname** *required*	PNR surname	string

Responses

HTTP Code	Description	Schema
200	HTML Page	No Content

2.7. Flight Status

Searches status of flights by route or flight number.

2.7.1. Flight Status Search

```
GET /flightStatus
```

Description

Returns flight status UI search form.

- Example Call: https://ibe.hitit.aero/flightStatus

Responses

HTTP Code	Description	Schema
200	HTML Page	No Content

2.8. Invoice Ticket

Redirects to the pdf viewer page where passenger invoice tickets are displayed.

2.8.1. Search call for passenger invoice tickets.

```
GET /reservation/invoiceTicket
```

Description

Call invoice ticket pdf viewer page

Usage Tips:

- Example Call: https://ibe.hitit.aero/reservation/invoiceTicket?PNRNo=123ABC&surname=SMITH&hideHeader=true&ticketNo=123456789&lang=en

Parameters

Type	Name	Description	Schema
Query	**PNRNo** *required*	PNR Number	string
Query	**hideHeader** *optional*	Show/hide header(login, logo etc.) section on the page. Default value: "false"	string
Query	**lang** *optional*	Select language	string
Query	**surname** *required*	PNR surname	string
Query	**ticketNo** *optional*	If specified, only ticket with that number will be shown. If not specified all tickets in pnr will be shown.	string

Responses

HTTP Code	Description	Schema
200	HTML Page	No Content

2.9. Loyalty - Family Member Request Via E-mail

Create the confirmation member request page received by e-mail or SMS

2.9.1. Accept or Deny the family membership request

```
GET /loyalty/myFamily/evaluate
```

Description

Call user confirmation page

Usage Tips:

- Example Call: https://ibe.hitit.aero/loyalty/myFamily/evaluate?confirmationCode=837924794567075021387690699600553524&status=1&lang=en

Parameters

Type	Name	Description	Schema
Query	**confirmationCode** *required*	Unique Code. It will come to the e-mail address.	string
Query	**lang** *optional*	Select language	string
Query	**status** *required*	Accept is 1, Deny is 0	string

Responses

HTTP Code	Description	Schema
200	HTML Page	No Content

2.10. Loyalty - Forgot Password

Recover forgotten password with membershipId, email or phone number

2.10.1. Recover forgotten password with membershipId, email or phone number

```
GET /loyalty/forgotPassword
```

Description

Call forgot password page
 Usage Tips:
 - Example Call: https://ibe.hitit.aero/loyalty/forgotPassword?membershipId=user@usermail.com&lang=en

Parameters

Type	Name	Description	Schema
Query	**lang** *optional*	Select language	string
Query	**membershipId** *optional*	Email address registered in the system. Password reset link will be sent to email address.	string

Responses

HTTP Code	Description	Schema
200	HTML Page	No Content

2.11. Loyalty - Sign In

Sign in to the loyalty system.

2.11.1. Sign in to the loyalty system

```
GET /loyalty
```

Description

Signin with a deeplink

Usage Tips:

- Example Call: https://ibe.hitit.aero/loyalty?username=ABCD&password=XYZ&isRemember=true

Parameters

Type	Name	Description	Schema
Query	**isRemember** *optional*	If true, the user will be remembered for future logins. If false, the user will not be remembered for future logins.	boolean
Query	**password** *required*	Password of the loyalty system user	string
Query	**username** *required*	Username of the loyalty system user	string

Responses

HTTP Code	Description	Schema
200	HTML Page	No Content

2.12. Loyalty - User Registration Activation

Create the activation page received by e-mail or SMS.

2.12.1. Show user registration results

```
GET /loyalty/memberActivation
```

Description

Call user registration page

Usage Tips:

- Example Call: https://ibe.hitit.aero/loyalty/memberActivation?activateCode=837924794567075021387690699600553524&lang=en

Parameters

Type	Name	Description	Schema
Query	**activateCode** *required*	Unique Code. It will come to the e-mail address.	string
Query	**lang** *optional*	Select language	string

Responses

HTTP Code	Description	Schema
200	HTML Page	No Content

2.13. Reservation

Opens the "Manage Booking" content, which offers services such as Check-in, Additional Services, Change Flight etc.

2.13.1. Search call for the manage booking processes.

```
GET /reservation
```

Description

Call manage booking main page

Usage Tips:

- Example Call: https://ibe.hitit.aero/reservation?PNRNo=123ABC&surname=SMITH&lang=en

Parameters

Type	Name	Description	Schema
Query	**PNRNo** *required*	PNR Number	string
Query	**lang** *optional*	Select language	string
Query	**surname** *required*	PNR surname	string

Responses

HTTP Code	Description	Schema
200	HTML Page	No Content

2.14. Timetable

Search for available flights one-way and round-trip with timetable view.

2.14.1. Timetable Search Form

```
GET /timetable
```

Description

Opens timetable UI search form.

Usage Tips:

- Example Call: https://ibe.hitit.aero/timetable

Responses

HTTP Code	Description	Schema
200	HTML Page	No Content

2.14.2. Timetable Parametric Search

```
GET /timetable/create
```

Description

Returns flight search result with given parameters.

Usage Tips:

- Example One Way Call: https://ibe.hitit.aero/timetable/create?tripType=ONE_WAY&depPort=ALA&arrPort=KGF&date=01.01.2022

- Example Round Trip Call With Language: https://ibe.hitit.aero/timetable/create?tripType=ROUND_TRIP&depPort=ALA&arrPort=KGF&date=01.01.2022&lang=ru

Parameters

Type	Name	Description	Schema
Query	**arrPort** *required*	Arrival port code Ex: ALA	string
Query	**date** *required*	Flight date. Ex: 01.01.2022 (day.month.year)	string
Query	**depPort** *required*	Departure port code Ex: IST	string
Query	**lang** *optional*	Page language code Ex: en	string
Query	**tripType** *required*	Trip Type. Ex: ONE_WAY	string

Responses

HTTP Code	Description	Schema
200	HTML Page	No Content

Chapter 3. Definitions

3.1. PassengerTypeQuantity

Name	Description	Schema
passengerSubType *optional*	passenger sub type **Example** : "STDT"	string
passengerType *optional*	passenger type	enum (ADLT, CHLD, INFT)
quantity *optional*	passenger quantity **Example** : 1	integer
